Gracefully sculptured legs complete the classic look

Clip-on fire screen

EXPERIENCE THE DIFFERENCE

Resting on gracefully sculptured legs, the Windsor is a uniquely different pellet stove. Fashioned in intricate detail from durable cast iron and featuring opening doors, it's unlike any other pellet stove produced. Traditional in style, it's available in an assortment of beautiful color finishes to match any decor.

The Windsor is also a powerful heater. It has one of the most effective heat exchangers available, easy to use controls with multiple settings and a generous sized hopper. Basked in warmth, you'll love to relax in front of the large viewing window and watch as the adjustable flames reflect off the cast brick liner.
